

Response to the Editor

Dear Dr. Anjali Singh,

Thank you very much for your careful review of our manuscript and for providing these helpful technical instructions. We have addressed all the requested points as follows.

Editor Comment 1: *We are unable to access Supplementary Figures S8–S11 because the files are unsupported or corrupted.*

Response: Thank you for notifying us. We have regenerated Supplementary Figures S8–S11 and included them in the consolidated **Supplementary_Information_SBA_BurkinaFaso.pdf** file in an accessible and high-resolution format. The complete supplementary file was checked to ensure that all figures are accessible and clearly displayed.

Editor Comment 2: *Any supplementary information should be uploaded as a single PDF file where possible, separate from the manuscript, as a “Supplementary Material” file type.*

Response: We have consolidated all supplementary figures and tables into a single PDF file, **Supplementary_Information_SBA_BurkinaFaso.pdf**, and uploaded it as a “**Supplementary Material**” file, in accordance with the journal’s instructions.

Editor Comment 3: *Please include a brief figure and table title and legend for the supplementary figures and tables within the Supplementary file.*

Response: We have added brief titles and legends for all supplementary figures and tables directly within the Supplementary Information PDF, positioned near the corresponding figures and tables.

Code Availability: The analytical scripts and reproducible workflow are publicly available through GitHub and archived in Zenodo: <https://doi.org/10.5281/zenodo.22712479>.

We sincerely appreciate your time, careful consideration, and helpful guidance throughout the revision process. We hope that the revised files now meet all the journal’s technical and formatting requirements.

Sincerely,

Md Salek Miah
